1.1	Date and time of arrival at your hospital	Please record the date and time the patient arrived at your hospital. It is important to record the arrival time because this is the first point of contact with the organisation.	<p>The point of arrival is often the ED or MAU, though patients occasionally come from home/elsewhere into other wards. These cases must also be included.</p> <p>Time is best determined from the ambulance transfer sheet, the A&amp;E/ED record or MAU/ward arrival record.</p>		
1.1a	Date of arrival	dd/mm/yyyy			<b>Look of answer option:</b> __/__/____  Earliest date allowed 01/01/18, Latest date = Today
1.1b	Time of arrival	24hr clock 00:00			<b>Look of answer option:</b> __:____ Cannot be a time in the future.

Patients that vape but do not smoke tobacco are not smokers.		<b>Radio button <u>four</u> options</b> <ul style="list-style-type: none"> <li>• Never</li> <li>• Ex</li> <li>• Current</li> <li>• Not recorded</li> </ul> <b>Can select <u>one</u> option only</b>

NEWS2				
Item no.	Question	Text under question	 Pop-up help note	
	National Early Warning Score (NEWS) 2	This is to be reintroduced into the dataset be able to measure COPD severity and ensure accurate case fix adjustment for all necessary reporting.	The NEWS2 is based on the aggregate scoring of six simple, and routinely collected, physiological parameters. Find out more here.	
3.1	What was the patient's first recorded NEWS 2 score for this admission?	Please enter the recorded score or choose 'Not recorded' or 'Calculate score' and record the first observations in the NEWS2 calculator below, every question must be answered in order for the score to be calculated. This should be the first recorded observations on arrival to hospital.		<b>Drop down list <u>twenty-three</u> options</b> <ul style="list-style-type: none"> <li>• Score not available</li> <li>• Calculate score</li> <li>• 0</li> <li>• 1</li> <li>• 2</li> <li>• 3</li> <li>• 4</li> <li>• 5</li> <li>• 6</li> <li>• 7</li> <li>• 8</li> <li>• 9</li> <li>• 10</li> <li>• 11</li> <li>• 12</li> <li>• 13</li> <li>• 14</li> <li>• 15</li> </ul>

Admission				
Item No.	Question	Text under question	 Pop-up help note	Validation
4	Admission	We measure both arrival and admission times as there is usually a delay between the two for those patients who need to stay in hospital.		
4.1	Date and time of admission	Please record the date and time as noted on the initial admission clerking record, in the ED, MAU or other admission ward. You may use the nursing record or time of initial observations if you are unable to find a time on the medical clerking sheet.		Warning flag to be added if admission date/time is more than 24 hours after arrival.
4.1a	Date of admission to hospital	dd/mm/yyyy		<b>Look of answer option:</b> _/_/____  Warning flag to be added if admission date/time is more than 24 hours after arrival.
4.1b	Time of admission to hospital	24hr clock 00 : 00		<b>Look of answer option:</b> _:__

Admission				
Item No.	Question	Text under question	 Pop-up help note	Validation
				Warning flag to be added if admission date/time is more than 24 hours after arrival.

Review				
Item No.	Question	Text under question	 Pop-up help note	Validation
5	Respiratory specialist review		This measures whether a respiratory specialist has reviewed the patient within 24 hours of admission. This is also a Best Practice Tariff item.	
5.1	Was the patient reviewed by a member of the respiratory team during their admission?		Respiratory team members may be defined locally to include respiratory health professionals deemed competent at seeing and managing patients with acute exacerbation of COPD.  These staff members might include: a respiratory consultant, a respiratory trainee of ST3 or above, a respiratory specialist nurse or physiotherapist, specialist COPD pharmacist, COPD nurse or physiotherapist.	<b>Radio buttons <u>two</u> options:</b> <ul style="list-style-type: none"> <li>• No</li> <li>• Yes</li> </ul> <b>Can select <u>one</u> option only</b>
5.1a	Date of first review by a member of the	dd/mm/yyyy		Greyed out if previous question was 'no'.  <b>Look of answer option:</b>

Review

	respiratory team			__/__/____ Must be the same as or after date and time of arrival but on or prior to discharge/death.
5.1b	Time of first review by a member of the respiratory team	24hr clock 00 : 00		Greyed out if previous question was 'no'. <b>Look of answer option:</b> __:____ Must be the same as or after date and time of arrival but on or prior to discharge/death.

Oxygen				
Item No.	Question	Text under question	 Pop-up help note	Validation
6	Oxygen		This question assesses the adequacy of oxygen therapy. <i>It aligns with NICE QS10, statement 3 and statement 6, 2023 and the BTS Emergency oxygen guideline.</i>	
6.1	Was oxygen administered to the patient at any point during this admission?			<b>Radio buttons <u>two</u> options:</b> <ul style="list-style-type: none"> <li>• No</li> <li>• Yes</li> </ul> <b>Can select <u>one</u> option only</b>
6.2	Did the patient have a target oxygen saturation range set?	All patients should have a target oxygen range stipulated.		<b>Radio buttons <u>two</u> options:</b> <ul style="list-style-type: none"> <li>• No</li> <li>• Yes</li> </ul> <b>Can select <u>one</u> option only</b>
6.2a	If yes, what was the target oxygen saturation range?			<b>Radio buttons <u>four</u> options:</b> <ul style="list-style-type: none"> <li>• 88-92%</li> <li>• 94-98%</li> <li>• Target range not stipulated</li> <li>• Other target range stipulated – Allows free text (50 characters limit)</li> </ul> <b>Can select <u>one</u> option only</b>

Oxygen				
Item No.	Question	Text under question	 Pop-up help note	Validation
6.2b	If 'Other', please specify:			<b>Look of answer option:</b>  Allows free text (50 characters limit)
6.3	Was oxygen prescribed for the patient at any point during their admission?		Patients likely to require oxygen at any point during their admission should have it formally prescribed. This is to ensure that all patients admitted with an acute exacerbation of COPD have a prescription of oxygen available to them at all times during their in-patient stay and includes patients who do not use the prescription. NRAP advocates a prescription being written for ALL patients hospitalized with COPD exacerbation.	<b>Radio buttons <u>two</u> options:</b> <ul style="list-style-type: none"> <li>• No</li> <li>• Yes</li> </ul> <b>Can select <u>one</u> option only</b>
6.3a	If yes, was oxygen prescribed to a stipulated target range?			This question is greyed out if 'No' selected for 6.3  <b>Radio buttons <u>four</u> options:</b> <ul style="list-style-type: none"> <li>• 88-92%</li> <li>• 94-98%</li> <li>• Target range not stipulated</li> <li>• Other target range stipulated – Allows free text (100 characters limit)</li> </ul> <b>Can select <u>one</u> option only</b>
6.3b	If 'Other' - please specify:			<b>Look of answer option:</b>  Allows free text (50 characters limit)

Oxygen				
Item No.	Question	Text under question	 Pop-up help note	Validation
6.3c	If yes, was the correct target oxygen saturation range prescribed for the patient?			<b>Radio buttons <u>two</u> options:</b> <ul style="list-style-type: none"> <li>No</li> <li>Yes</li> </ul> <b>Can select <u>one</u> option only</b>

NIV				
Item No.	Question	Text under question	 Pop-up help note	Validation
7	NIV		This question allows us to determine the number of patients who receive NIV acutely during their exacerbation and how rapidly they are treated. <i>This aligns with NICE QS10, statement 7, 2023, BTS NIV quality standard and the NCEPOD NIV report.</i>	
7.1	Was an arterial blood gas measurement taken?			<b>Radio buttons <u>two</u> options:</b> <ul style="list-style-type: none"> <li>No</li> <li>Yes</li> </ul> <b>Can select <u>one</u> option only</b>
7.1a	Date of 1 <sup>st</sup> arterial blood gas	dd/mm/yyyy		<b>Look of answer option:</b> __/__/__ Must be the same as or after date and time of arrival but on or prior to discharge/death.

NIV				
Item No.	Question	Text under question	Pop-up help note	Validation
				Must be the same as or after date and time of arrival but on or prior to discharge/death.
7.2	Did the patient receive a diagnosis of persistent acidotic hypercapnic ventilatory failure according to their blood gases at any point during admission?	Acidotic hypercapnic ventilatory failure is defined as an arterial partial pressure of carbon dioxide (PaCO <sub>2</sub> ) of >6.5 kPa (>50 mmHg) with blood pH <7.35. A diagnosis of persistent acidotic hypercapnic ventilatory failure means that it has not improved after one hour of optimal medical therapy.		<b>Radio buttons <u>two</u> options:</b> <ul style="list-style-type: none"> <li>No</li> <li>Yes</li> </ul> <b>Can select <u>one</u> option only</b>
7.2a	Date of arterial blood gas measurement demonstrating persistent acidotic hypercapnic ventilatory failure.	dd/mm/yyyy		<b>Look of answer option:</b> __/__/____  Must be the same as or after date and time of arrival but on or prior to discharge/death.
7.2b	Time of arterial blood gas measurement demonstrating persistent acidotic hypercapnic ventilatory failure	24hr clock 00 : 00		<b>Look of answer option:</b> __:__  Must be the same as or after date and time of arrival but on or prior to discharge/death.
7.3	Did the patient receive acute	Option of "NIV not clinically appropriate" should be selected for those patients in whom NIV was deemed clinically inappropriate as		<b>Radio buttons <u>three</u> options:</b> <ul style="list-style-type: none"> <li>No</li> <li>Yes</li> </ul>

NIV				
Item No.	Question	Text under question	Pop-up help note	Validation
	treatment with NIV?	part of a shared decision making or advance care planning process.		<ul style="list-style-type: none"> <li>NIV not clinically appropriate</li> </ul> <b>Can select <u>one</u> option only</b>
7.3a	Date NIV first commenced	dd/mm/yyyy		<b>Look of answer option:</b> __/__/____ <input type="checkbox"/> Not recorded <b>Can enter numeric value <u>OR</u> select 'Not recorded'</b>  NIV values allowed only on or post arrival and on or prior to discharge/death.
7.3b	Time NIV first commenced	24hr clock 00 : 00		<b>Look of answer option:</b> __:__ <input type="checkbox"/> Not recorded <b>Can enter numeric value <u>OR</u> select 'Not recorded'</b>  NIV values allowed only on or post arrival.
7.3c	Where was NIV commenced?			<b>Radio buttons eight options:</b> <ul style="list-style-type: none"> <li>Emergency department</li> <li>Acute medical unit</li> <li>Respiratory support unit</li> <li>ICU</li> <li>High dependency unit</li> <li>Respiratory ward</li> <li>General ward</li> <li>Other</li> </ul> <b>Can select <u>one</u> option only</b>

Spirometry				
Item No.	Question	Text under question	 Pop-up help note	Validation
8	Spirometric evidence of COPD		This question allows us to determine whether the patient actually has airflow obstruction. <i>The question aligns with NICE QS10, statement 1, 2023.</i>	
8.1	Was the patient previously known to have COPD prior to this admission?			<b>Radio buttons <u>two</u> options:</b> <ul style="list-style-type: none"> <li>• Yes</li> <li>• No</li> </ul> <b>Can select <u>one</u> option only</b>
8.1a	If yes, was this previous COPD diagnosis confirmed by obstructive spirometry?	COPD diagnosis is confirmed by post-bronchodilator spirometry demonstrating airflow obstruction as defined as: <ul style="list-style-type: none"> <li>• FEV1/FVC ratio &lt;0.7 or</li> <li>• in accordance with z (SR) values and LLN for FEV1/FVC ratio.</li> </ul>		This question is greyed out if 'Not recorded' is selected for 8.1 <b>Radio buttons <u>three</u> options:</b> <ul style="list-style-type: none"> <li>• Yes</li> <li>• No</li> <li>• Result not accessible</li> <li>• Not known</li> </ul> <b>Can select <u>one</u> option only</b>
8.2	What was the patient's most recently recorded FEV1 % predicted?	Please enter a percentage between 15 and 125.		<b>Look of answer option:</b> ___% <input type="checkbox"/> Not recorded <b>Can enter numeric value <u>OR</u> select 'Not recorded'</b>

## Spirometry

Item No.	Question	Text under question	Pop-up help note	Validation
				Numeric option must be a: <ul style="list-style-type: none"> <li>percentage</li> <li>maximum of 3 digits to 1 decimal place (values more than 1 decimal place will round up or down)</li> <li>number between 15 and 125.</li> </ul>
8.2a	Date of last recorded FEV1 % predicted	Please enter the date of the last recorded FEV1 % predicted.  dd/mm/yyyy		This question is greyed out if 'Not recorded' is selected for 8.2  <b>Look of answer option:</b> __/__/____ <input type="checkbox"/> Not recorded <b>Can enter numeric value <u>OR</u> select 'Not recorded'</b>  Spirometry values must be on or after patient's 35 <sup>th</sup> birthday.
8.3	What was the patient's most recently recorded FEV1/FVC ratio?	Please enter a value between 0.20 and 0.95.	FEV1/FVC ratio can be calculated by dividing the FEV1 by the FVC. If you only have the ratio recorded as a percentage, please divide this figure by 100 to convert it to a decimal.	<b>Look of answer option:</b> _._____ <input type="checkbox"/> Not recorded <b>Can enter numeric value <u>OR</u> select 'Not recorded'</b>  Numeric option must be a: <ul style="list-style-type: none"> <li>maximum of 1 digit to 2 decimal places, between 0.20 and 0.95 (values more than 2</li> </ul>

Spirometry				
Item No.	Question	Text under question	 Pop-up help note	Validation
				decimal place will round up or down)
8.3a	Date of last recorded FEV1/FVC ratio	Please enter the date of the last recorded FEV1/FVC ratio.  dd/mm/yyyy		This question is greyed out if 'Not recorded' is selected for 8.3  <b>Look of answer option:</b> _/_/____ <input type="checkbox"/> Not recorded <b>Can enter numeric value <u>OR</u> select 'Not recorded'</b>  Spirometry values must be on or after patient's 35 <sup>th</sup> birthday.
8.4	Where was the patient's most recent spirometry performed?			This question is greyed out if 'Not recorded' is selected for both 8.2 AND 8.3 <ul style="list-style-type: none"><li>• Secondary care</li><li>• Primary care or community</li><li>• Not known</li></ul> <b>Can only choose one answer</b>

Discharge				
Item No.	Question	Text under question	 Pop-up help note	Validation
9	Discharge			
9.1	Was the patient alive at discharge from your hospital?			<b>Radio buttons <u>two</u> options:</b> <ul style="list-style-type: none"> <li>• Alive</li> <li>• Died as inpatient</li> </ul> <b>Can select <u>one</u> option only</b>
9.2	Date of discharge/death	Please enter the date of discharge/death.  dd/mm/yyyy	The date of discharge is to be found usually at the end of the admission record, or on the discharge summary.  If the patient is discharged onto another hospital, an early discharge scheme, hospital at home or community COPD scheme, please give the date of discharge from your hospital and not the scheme. If the patient self-discharged, use date of self-discharge.	<b>Look of answer option:</b> _/_/_  Must be the same as or after date of arrival.
9.3	Did the patient self-discharge?			This question is greyed out if 'Died as inpatient' is selected for 9.1. <b>Radio buttons two options:</b> <ul style="list-style-type: none"> <li>• Yes</li> <li>• No</li> </ul>
9.4	Which of the following specific elements of the	The mandatory elements of a discharge bundle are linked to the evidence-based items listed within the best practice tariff guidance (BPT).	This question aligns with NICE QS10, statement 8, 2023 and the BTS Intermediate Care guidance. This is also a Best Practice	This question is greyed out if 'Died as inpatient' is selected for 9.1

Discharge				
Item No.	Question	Text under question	 Pop-up help note	Validation
	discharge bundle were undertaken as part of the patient's discharge?	If any of the good practice discharge bundle elements have not been completed please select no/not done	<p>Tariff (BPT) item.</p> <p>The BPT is structured way of improving discharge processes and care leading to improved patient outcomes. Based on evidence based clinical interventions or actions.</p> <p>A discharge bundle should include:</p> <ul style="list-style-type: none"> <li>- Review of medication, specifically review and optimisation of inhaler technique and choice, and understanding of medication use.</li> <li>- Provision of a co-produced written or digital self-management plan and where appropriate an emergency drug pack.</li> <li>- Evidence based tobacco dependence advice and treatment with offer of onward referral as appropriate.</li> <li>- Assessment for suitability for referral to pulmonary rehabilitation and referral if appropriate.</li> <li>- Ensuring appropriate follow up arrangements are in place prior to discharge.</li> </ul>	Bold text should be headers with the checkboxes underneath each header.
	<b>Inhaler technique and medication review</b>	All three review options can and should be selected for the discharge bundle element to be completed.		<p><b>Check boxes, four options:</b></p> <ul style="list-style-type: none"> <li>- Inhaled therapy reviewed and optimised</li> <li>- Inhaler technique checked</li> </ul>

Discharge				
Item No.	Question	Text under question	 Pop-up help note	Validation
				<ul style="list-style-type: none"> <li>- Medication use and understanding reviewed</li> <li>- No elements completed</li> </ul> <p><b>Can select all three review options or no elements.</b></p>
	<b>Self-management plan</b>	A self management plan should be reviewed, agreed and provided or referred to community respiratory team for plan.		<p><b>Check box, two options:</b></p> <ul style="list-style-type: none"> <li>- A written or digital self-management plan agreed and provided or reviewed</li> <li>- Not done</li> </ul> <p><b>Can only select one option</b></p>
	<b>Emergency drug pack</b>	Patients should be considered for discharge with an emergency drug pack, if clinically appropriate, or referred to community respiratory team as part of the discharge bundle.		<p><b>Check boxes, three options:</b></p> <ul style="list-style-type: none"> <li>- Yes, emergency drug pack provided</li> <li>- No, emergency drug pack not provided as not appropriate</li> <li>- Not done</li> </ul> <p><b>Can only select one option</b></p>
	<b>Tobacco dependency treatment and support on discharge</b>	Patients who are current smokers must be offered both NRT and/or other pharmacotherapy and behavioural support as part of the discharge bundle.		<p>Validation: this option is enabled for current tobacco smokers only - question 2.7a='Current'</p> <p><b>Check boxes, three options:</b></p> <ul style="list-style-type: none"> <li>- Offered NRT and/or other pharmacotherapy on discharge</li> <li>- Offered onward referral for behavioural support on discharge</li> </ul>

Discharge				
Item No.	Question	Text under question	 Pop-up help note	Validation
				<ul style="list-style-type: none"> <li>- No elements completed</li> </ul> <b>Can/should select both</b>
	<b>Pulmonary rehabilitation</b>	Patients should be assessed for suitability and referred for PR, if appropriate, as part of the discharge bundle.		<b>Check boxes, four options:</b> <ul style="list-style-type: none"> <li>- Assessed and referred for PR</li> <li>- Assessed and patient declined referral for PR</li> <li>- Assessed and not suitable for referral for PR</li> <li>- No elements completed</li> </ul> <b>Can only select one option</b>
	<b>Follow up requests</b>	A follow up should be requested as part of the discharge bundle; this should ideally be done within 72 hours.		<b>Check boxes, two options:</b> <ul style="list-style-type: none"> <li>- Follow up has been requested which should occur within 72 hours of discharge by person or by phone.</li> <li>- Not done</li> </ul> <b>Can only select one option</b>
9.5	What was the patient's discharge plan?	COPD community service can include any community or integrated service that provides COPD follow up e.g. a COPD supported discharge. This does not include primary care services such as routine practice nurse or GP COPD appointments.		This question is greyed out if 'Died as inpatient' is selected for 9.1.  <b>Can choose more than one option</b> <ul style="list-style-type: none"> <li>• Hospital at home</li> <li>• Virtual ward</li> <li>• COPD community service</li> <li>• COPD secondary care clinic</li> <li>• Patient declined</li> <li>• None</li> </ul>
