Royal College of Physicians | National respiratory audit programme (NRAP)

Primary care: Data flows

Reviewed: 19/01/26 **Review Due: January 2027**

Existing datasets	**GP Practices**	**Data Health and Care Wales (DHCW)** **Joint Data Controller: HQIP and DHCW** **Data Processer: DHCW**	**Royal College of Physicians** **Data Controller: HQIP** **Data Processor: RCP**	**Imperial College London** **Data Controller: HQIP** **Data Processor: Imperial College London**	**Third party applicants** **Data controller: HQIP** **Data Processor: RCP**
Primary care asthma and COPD practice level data. Data Controller: GP practices Data: identifiable; sensitive	Audit+ Module allows GP practices to view extracts/reports of own data from Primary Care Information Portal for local review. This data does not leave the practice and is not available to anyone outside the practice *Identifiable; sensitive* Practice (only visible to the practice at hand), cluster and LHB level data available on the Primary Care Information Portal (NADEX log-in required for access). *Anonymised; aggregated*	**DHCW** accesses **aggregated, practice level data** using Audit+ module. DHCW carry out data cleaning and conduct analyses. **Anonymised, aggregated** national, LHB and cluster level data is extracted from the system and sent to RCP. *Anonymised; aggregated* *Small numbers suppressed*	**RCP** receive **anonymised, aggregated** (i.e. analysed) data to facilitate management, respond to queries, and provide commentary and publish: - Primary care national report. - LHB/cluster reports. - Peer reviewed articles. *Anonymised; aggregated* *Small numbers suppressed* **RCP** provide commentary on aggregated data for reports on Primary Care Information Portal downloaded section.	**Imperial** receive **anonymised, aggregated** (i.e. analysed) data to support the RCP with production of national reports and peer reviewed articles/research papers. Imperial will support with analysis if necessary. *Anonymised; aggregated* *Small numbers suppressed*	**RCP** transfer analysed, **aggregated** audit data (national/LHB/cluster) to **third party** once request has been approved by the RCP and HQIP. *Anonymised; aggregated* *Small numbers suppressed* **Third party** analyse data and produce audit and research **Third party** publish research findings. *Anonymised; aggregated* *Small numbers suppressed.* **Key** **Red** = Identifiable = N/A **Blue** = Pseudonymised = N/A **Green** = Anonymised and Aggregated
