NRAP National Respiratory
Audit Programme

Outlier report

Non-participating services in
the 2024/25 cohort period for
the National Respiratory Audit
Programme – COPD, adult asthma,
CYP asthma and pulmonary
rehabilitation audits

Publication year: 2026

Introduction

This outlier report has been completed in accordance with the [NRAP outlier policy](#).

Non-participation in the audit:

- > Identifying and reporting providers that did not participate in one or more of the NRAP clinical audits (adult asthma, COPD, children and young people's asthma, pulmonary rehabilitation) during the [Room to breathe](#) annual cohort period (1 April 2024 to 31 March 2025)
- > Non-participation for NRAP means:
 - a provider has not registered with an audit for which it is eligible, or
 - a registered provider has failed to enter a single patient record into the respective audit where it had eligible cases in any annual cohort (cohort definitions are outlined below).
- > Eligible secondary care providers are those recorded in Hospital Episode Statistics (HES) or the Patient Episode Database for Wales (PEDW) as having 60 or more eligible cases during the cohort period.

Audit participation and case ascertainment for the cohort period, as indicated above, can be accessed via the following workstream datafile links: [adult asthma](#), [COPD](#), [children and young people's asthma](#) and [pulmonary rehabilitation](#).

The following table includes all services that did not participate in the Room to breathe cohort period. We have also included information on services identified as outliers in [both](#) the 2023/24 and 2024/25 reporting periods to provide additional context and a more complete picture of non-participation over time. These services can be seen in tables 1, 3 and 5.

Following direct communication with services and Trust/Health Board Chief Executives and Medical Directors, services have been grouped into the following categories:

- 1 Services identified as an outlier for the 2023/24 period **and** the 2024/25 period that have since re-engaged with the audit
- 2 Services identified as an outlier for the 2024/25 period that have since re-engaged with the audit
- 3 Services identified as an outlier for the 2023/24 period **and** the 2024/25 period
- 4 Services identified as an outlier for the 2024/25 period
- 5 Services identified as an outlier for the 2023/24 period **and** the 2024/25 period that have not responded to any outlier communication
- 6 Services identified as an outlier for the 2024/25 period and have not responded to any outlier communication

Following the outlier process carried out for the 2023/24 cohort period, 55 non-participating hospitals were identified as outliers through the national outlier identification process. These data were published in an [appendix](#) to our outcomes report. This has led to:

18 COPD services identified as outliers, with 15 re-engaged

6 PR services identified as outliers, with 4 re-engaged

25 adult asthma services identified as outliers, with 23 re-engaged

6 children and young people's asthma services identified as outliers, with 6 re-engaged

1. Services identified as an outlier for the 2023/24 period and the 2024/25 period that have since re-engaged with the audit

Hospital	Trust (England) / local health board (Wales)	Integrated care system	Region	Country
Adult asthma				
Newham General Hospital	Barts Health NHS Trust	North East London Health & Care Partnership	London	England
St George's Hospital	St George's University Hospitals NHS Foundation Trust	South West London Health and Care Partnership	London	England
Birmingham Heartlands Hospital	University Hospitals Birmingham NHS Foundation Trust	Live Healthy Live Happy Birmingham and Solihull	Midlands	England
Princess Royal Hospital, Telford	Shrewsbury and Telford Hospital NHS Trust	Shropshire, Telford and Wrekin	Midlands	England
Royal Shrewsbury Hospital	Shrewsbury and Telford Hospital NHS Trust	Shropshire, Telford and Wrekin	Midlands	England
County Hospital (Stafford)	University Hospitals of North Midlands NHS Trust	Staffordshire and Stoke-on-Trent	Midlands	England
West Cumberland Hospital	North Cumbria Integrated Care NHS Foundation Trust	North East and North Cumbria	North East and Yorkshire	England
Weston General Hospital	University Hospitals Bristol and Weston NHS Foundation Trust	Healthier Together Bristol, North Somerset and South Gloucestershire	South West	England
COPD				
Princess Royal Hospital, Telford	Shrewsbury and Telford Hospital NHS Trust	Shropshire, Telford and Wrekin	Midlands	England
Royal Shrewsbury Hospital	Shrewsbury and Telford Hospital NHS Trust	Shropshire, Telford and Wrekin	Midlands	England
County Hospital (Stafford)	University Hospitals of North Midlands NHS Trust	Staffordshire and Stoke-on-Trent	Midlands	England
Huddersfield Royal Infirmary	Calderdale and Huddersfield NHS Foundation Trust	West Yorkshire	North East and Yorkshire	England
Torbay Hospital	Torbay and South Devon NHS Foundation Trust	Together for Devon	South East	England
Weston General Hospital	University Hospitals Bristol and Weston NHS Foundation Trust	Healthier Together Bristol, North Somerset and South Gloucestershire	South West	England
CYP asthma				
Royal Alexandra Children's Hospital	University Hospitals Sussex NHS Foundation Trust	Sussex Health and Care Partnership (ICS)	South East	England
University Hospital of Wales	Cardiff and Vale University LHB	N/A	N/A	Wales
PR				
Powys Pulmonary Rehabilitation Service	Powys Teaching LHB	N/A	N/A	Wales

2. Services identified as an outlier for the 2024/25 period that have since re-engaged with the audit

Hospital	Trust (England) / local health board (Wales)	Integrated care system	Region	Country
Adult asthma				
North Middlesex Hospital	North Middlesex University Hospital NHS Trust	North Central London Partners in Health and Care	London	England
Darlington Memorial Hospital	County Durham and Darlington NHS Foundation Trust	North East and North Cumbria	North East and Yorkshire	England
University Hospital of North Durham	County Durham and Darlington NHS Foundation Trust	North East and North Cumbria	North East and Yorkshire	England
